W. S. HOPKYNS,
Secretary to the Government of Bengal.

Regulations for the appointment, in India, of probationers for the Indian Forest Service in 1925.

Applications are invited from persons domiciled in India for probationerships for the Indian Forest Service. Candidates of European or Anglo-Indian descent must be unmarried and, if appointed as probationers, must remain unmarried until completion of the prescribed course of training and their return to India.

2. Applicants, who should not be more than 23, nor less than 19, years of age on 30th June 1925, must possess an *Honours*, or a first class degree in Science or an M. Sc. degree of any class of a University incorporated by law in India or the qualifications required of candidates applying for appointment in England.* Applicants who also have completed the requisite course in Forestry must not be more than 25 years of age on the 30th June 1925.

3. Any attempt on the part of a candidate to enlist support for his application through persons of influence will disqualify him for appointment. Testimonials or other recommendations should not be attached to the applications.

4. Applications from officers already in the public service, whether as probationers or on a permanent establishment, will not be entertained.

5. Applications from residents in Ajmer, Baluchistan, Coorg, Delhi and North-West Frontier Province should be addressed to the Secretary to the Government of India, Department of Education, Health and Lands, through the Chief Commissioners of those Administrations, and from residents in Indian States through the Political Officer or Agent *in time to reach the Government of India not later than the 1st May 1925.* Applications from residents in other territories should be addressed to the Revenue Secretary of the local Government concerned *in time to reach him not later than the 1st May 1925.* The applications must be in the form attached to these regulations. 6. Applications must be accompanied by a preliminary medical certificate of fitness for service in the Forest Department, signed by a Presidency Surgeon or the Civil Surgeon of the district or agency in which the applicant resides. This certificate is intended to prevent applications from candidates who are obviously physically unsuited for the Forest Service and will not exempt candidates from appearance before the final Medical Board

7. Candidates who from their applications and from any further enquiries that may be considered necessary appear to the Government of India or to the local Government concerned to be *prima facie* suitable will be summoned to appear before a Medical Board to undergo a strict medical examination in which particular stress will be laid on good vision and hearing. Each candidate appearing before the Board will pay a fee of Rs. 16 for his medical examination which will not be refunded whether the candidate is passed as fit or rejected as unfit. If passed as fit for the work of the Forest Department, they will then be interviewed by a Selection Board appointed by the Government of India or by the local Government concerned as the case may be.

* * * * * * *

† A Moderatorship in Natural Science or in Experimental Science at the University of Dublin will be considered as fulfilling these conditions.

Untrained candidates selected as a result of the interview prescribed in paragraph 7 will be appointed as probationers for the Indian Forest Service; they will be required to leave for England early in September and, subject to their undergoing satisfactorily, as described below, a course in Forestry and allied subjects in England, will be appointed finally as Assistant Conservators of Forests. A free second class passage to England will be provided, but neither the cost of travelling to the port of embarkation, nor the cost of the overland journey from Marseilles will be paid to candidates selected for training unless they are expressly instructed to travel overland and provided with steamer tickets to Marseilles only. In the latter event the High Commissioner for India will refund the rail and baggage expenses if directed to do so.

Fully trained candidates, if selected and appointed to the Indian Forest Service, will not be required to undergo any further training in England. They will, however, be placed on probation for the first year of their service. Such candidates shall not be entitled to any payment in lieu of the allowances which are payable to probationers while under training.

10. *Period of probation.*—Before appointment to the Indian Forest Service a probationer will be required—

(1) to have undergone and qualified in, to an extent to be prescribed by His Majesty's Secretary of State for India, the course of Forestry at such University as the Secretary of State may prescribe;

(2) to have undergone a special course of instruction in Forestry under the direction and supervision of the Director of Indian Forest Studies;

(3) to have passed an examination in forest engineering and, if required, in certain other special subjects, namely, Systematic Botany of Indian trees, Indian Geology, Forest Law and Indian Working Plans;

(4) to have undergone a final competitive examination in Forestry;

(5) to have satisfied the Secretary of State, in such manner as may be determined, of his ability to ride.

The period of probation is, in ordinary cases, two years. The Director of Indian Forest Studies instructs probationers in each case as to the order and manner in which they should fulfil these various requirements.

11. *Charges.*—Probationers will be required to defray all expenses of lodging, board, tuition and excursion to forest centres in the United Kingdom while at the University and on practical instruction.

12. *Allowances.*—The Secretary of State for India in Council makes payment to each probationer at the rate of £350* per annum, not exceeding a total of £700.

These payments are ordinarily made on the following dates:—

First year—

	£
On the first October	75
On the 15th December	100
On the 15th March	75
On the 15th July	100
	350

Second year—

	£
On the 15th December	100
On the 15th March	75
On the 15th July	100
On the 15th October (after execution of agreement) ...	75
	350

* The Secretary of State for India gives notice that the amount of these allowances will be reconsidered in 1925 with a view to possible reduction with effect from the instalment payable in October 1926.

The cases of probationers whose probation does not extend over the full period of two years will be specially considered.

For tours made on the Continent, under the instructions of the Director of Forest Studies, subsistence and travelling allowance will be paid by the Secretary of State for India in Council at such rates as he may from time to time fix. The fees of the local forest officials, at the centres visited, will also be paid by the Secretary of State.

The grant of allowances is subject to the following conditions :—

(*a*) that the progress of the probationer in his studies is satisfactory ;

(*b*) that the probationer gives security* to refund the payments in the event of his failing to qualify for an appointment in the Indian Forest Service, or not signing the articles of agreement as specified in paragraph 15 or failing to join the Indian Forest Service at the end of the period of probation ;

(*c*) that the probationer undertakes to refund in proportions fixed under the terms of his agreement, the payments, together with the cost of his first-class passage to India, in the event of his leaving the service during the first five years from the date of his appointment.

13. *Conduct.*—Every probationer is required to conduct himself during the period of probation in a manner satisfactory to the Secretary of State and to give evidence of satisfactory progress in his studies in such a manner as may be required, failing which, or in the event of serious misconduct, he is liable to have his name removed from the list of probationers.

14. *Appointment and seniority.*—Probationers who comply with the requirements of paragraph 10 within the sanctioned period of time, and also satisfy such other tests as may be prescribed, are appointed Assistant Conservators in the Indian Forest Department, provided they are of sound constitution and free from physical defects which would render them unsuitable for employment in the Indian Forest Service. No probationer will be confirmed as a member of the Indian Forest Service who fails to profit by the course of training or who appears, in the light of the experience acquired as to his capacity and qualifications during the probationary period, to be unsuited for the work of a forest officer.

The position of the Assistant Conservators in the Provincial Forest Lists is determined by the Secretary of State for India in Council on the report of the Director of Indian Forest Studies. Officers promoted from the Provincial to the Indian Service will take rank according to their pay in the latter service. Probationers recruited under these regulations must consequently be prepared to find their names placed below those of officers promoted from the Provincial Service.

Probationers are allowed at the end of the period of probation to state their preference in respect to the province to which they desire to be allotted ; but the distribution is made to the several provinces according to the needs of the public service, at the discretion of the Secretary of State for India in Council and no guarantee can be given that probationers will, on appointment, be posted to their own provinces. Indians will not, however, be required to serve in Burma and Burmese will not be required to serve in India.

Officers are at all times liable to be transferred from one province to another at the pleasure of the Government of India.

15. *Articles of agreement.*—A probationer is required, on qualifying for appointment as Assistant Conservator, to sign articles of agreement setting forth the terms and conditions of his appointment ; he must embark for India when required to do so by the Secretary of State. Failure to embark at the stated time will, in the absence of satisfactory explanation, lead to forfeiture of appointment.

16. *Passage to India.*—Each probationer on appointment to the Indian Forest Service is provided with a free first-class passage to India.

17. *Salary.*—The scale of pay and allowances in force for officers of Indian domicile is given in Appendix II to these regulations.

18. *Promotion and pension.*—Promotion and pension are governed by the regulations laid down by the Secretary of State for India in Council, and applicable to forest officers, such regulations being subject to any modifications or alterations which may be made in them from time to time by him and their interpretation in case of any doubt arising being left to that authority.

Certain information regarding appointments in the upper controlling staff of the Indian Forest Service will be found in Appendix II, and a summary of information regarding pensions is contained in Appendix III.

* Probationers will be required to give security to the Local Government or Political Officer, through whom they submitted their applications. If this condition is not satisfied, they will not be permitted to leave for England.

APPENDICES.

DEPARTMENT OF AGRICULTURE, BENGAL.

Forecast of the *Rabi* crops of Bengal for 1924-25.

NOTE.—On an average of the five years ending 1922-23, the area under summer rice in Bengal has represented some 0·5 per cent. of the total area under rice in British India.)

Character of the season.—The rainfall in September was in excess of the normal while in October it was below the average. Preparatory tillage and sowing of crops, though commenced in the normal time, ended later than usual. In November the rainfall being very heavy interfered with the germination and growth while dry weather during the month of December proved generally beneficial. Showers since the beginning of January have adversely affected the mature crops to some extent, especially where hail has fallen. On the other hand, transplantation and growth of summer rice and other late-sown crops have been facilitated. On the whole, the season may be regarded as a fair one for the crops.

Acreage.—The normal area under the different *rabi* crops in the province dealt with in this forecast is estimated at 2,972,600 acres. The area actually sown this year is reported to be 2,583,200 acres as against 2,617,500 acres last year. Of this, the area under summer (*boro*) rice is returned at 421,700 acres as against 407,900 acres of last year.

Outturn.—According to the estimates of District Officers the outturn of the different *rabi* crops for the Province as a whole works out to 77 per cent. of the normal as against 74 per cent. of last year, the returns from the more important *rabi* districts being as follows :—

Nadia 77, Murshidabad 59, Jessore 53, Khulna 76, Burdwan 73, Midnapore 83, Rajshahi 62, Jalpaiguri 85, Rangpur 100, Pabna 83, Malda 68, Dacca 81, Mymensingh 70, Faridpur 84, Bakarganj 58, Tippera 69 and Noakhali 97.

Summer rice crop.—The outturn of summer rice according to district estimates is 76 per cent. of the normal against 75 per cent. last year. The gross yield of the crop for the Province, on the basis of a normal yield of 14 maunds of clean grain per acre, is thus estimated at 164,800 tons this year against 157,300 tons last year.

RESOLUTIONS.

TARIFFS.

The 28th March 1925.

No. 221-T.—In paragraph 16 of the second portion of the original Report regarding the grant of protection to the Steel Industry, the Tariff Board considered as a general conclusion that an increase in duties on unfabricated steel did not necessitate any increase in the duties on imported boats, barges, flats, steamers, etc. The Board did not arrive at any distinct finding as to the duties which ought to be imposed when such vessels were imported as shaped and fabricated parts for erection in India, as that question was not brought to the notice of the Tariff Board. This question is now referred to the Tariff Board for enquiry and report with special reference to a representation received from the Irrawaddy Flotilla Company that the general conclusion of the Tariff Board should be held to cover the imports of shaped and fabricated parts for such vessels.

2. Firms or persons interested in the above enquiry should address their representations direct to the Secretary of the Tariff Board.

ORDER.—Ordered that a copy of the above resolution be communicated to all Local Governments and Administrations, all Departments of the Government of India, the Director General of Commercial Intelligence, the Indian Trade Commissioner in London and the Secretary of the Tariff Board.

Ordered also that it be published in the *Gazette of India*.

No. 38-T. (*2*).—The Government of India have received a number of representations to the effect that the development of certain industries in India is hampered by the fact that the duty on the finished article is lower than the duty on the materials which have to be imported for the manufacture of that article. A list of such representations is appended to this resolution. The representations will now be referred to the Tariff Board. It is requested to examine these representations and any others of a similar nature which may be brought to its notice and to make such recommendations, whether general or special, as it thinks fit.

2. Firms or persons interested in the above enquiry should address their representations direct to the Secretary of the Tariff Board.

ORDER.—Ordered that a copy of the above resolution be communicated to all Local Governments and Administrations, all Departments of the Government of India, the Director General of Commercial Intelligence, the Indian Trade Commissioner in London and the Secretary of the Tariff Board.

Ordered also that it be published in the *Gazette of India*.

POLITICAL.

Delhi, the 1st April 1925.

No. 383.—The following statement is published for general information :—

A statement by His Excellency the Governor-General of the reasons which have moved him, in exercise of the powers conferred upon him by section 67-B of the Government of India Act, to pass an order for the certification of the Bill to supplement the Bengal Criminal Law Amendment Act, 1925.

J. CRERAR,
Secretary to the Government of India.

STATEMENT.

1. When, on the 25th October, 1924, I made and promulgated an Ordinance to supplement the ordinary Criminal Law in Bengal, I published a statement recording in a concise form the circumstances which in my judgment rendered this measure indispensable. I do not consider it necessary to recapitulate or amplify that statement further than to say that the grave recrudescence of anarchical and terrorist crime in Bengal and the organization of conspiracies to this end can no longer be matter of controversy.

2. I intimated at the same time that measures of a more permanent character would in due course be presented by the Government of Bengal in the local Legislature. In pursuance of this intimation a Bill was introduced in the Bengal Legislative Council, the object of which was to continue the provisions of the Ordinance for a period of five years. This Bill, having been enacted under the provisions of section 72-E of the Government of India Act, has received the assent of His Majesty in Council.

3. Certain of the provisions of the Ordinance were, however, beyond the competence of the local Legislature, partly as affecting the jurisdiction of the High Court of Judicature at Fort William in Bengal and partly as operating, in one particular and in certain contingencies, beyond the territorial limits of the Presidency of Bengal. The object of the present Bill is to supplement the local Act in these respects.

4. The provisions for an appeal to the High Court by any person convicted on a trial held by Commissioners under the local Act and for the submission to the High Court of any sentence of death passed by the Commissioners constitute in my opinion important safeguards for the just and equitable operation of the special procedure instituted by this Act. Circumstances may arise in which it will be desirable that persons committed to custody in jail under section 11 of the local Act should be, for such time as may be needful, removed from the environment in which their presence might be a source of danger to the public security. This is a precaution which I consider necessary. I also consider it indispensable, in order that the preventive and precautionary powers vested by the Act in the Executive Government may be made effective, that orders of arrest or of committal to or detention in custody should not be subject to directions under section 491 of the Code of Criminal Procedure, 1898. Moreover, if proceedings of this character were taken Government might be obliged to reveal information of the most dangerous character and to compromise and render powerless their measures of precaution and intelligence which constitute, in dealing with secret conspiracies, one of the most important practical safeguards of public security. This would clearly frustrate some of the most essential purposes of the Act.

5. For these reasons I have decided and certified that this Bill is essential for the tranquillity of the Presidency of Bengal.

6. Inasmuch as the Bengal Criminal Law Amendment Ordinance, 1924, expires on the 25th April, 1925, and time does not allow of the Bill being submitted for His Majesty's assent in accordance with the procedure laid down in sub-section (2) of section 67-B of the Government of India Act, I have made a direction that the Act shall come into operation forthwith.

DEPARTMENT OF AGRICULTURE, BENGAL.

Third Forecast of the Wheat Crop of Bengal, 1924-25.

(NOTE.—On an average of the five years ending 1922-23, the area under wheat in Bengal has represented some 0·4 per cent. of the total area under wheat in India. The ratio of the irrigated wheat acreage to total wheat acreage in (*a*) British India and (*b*) in the territory now reported on has, in the five years ending 1922-23, averaged (*a*) 45·2 and (*b*) 14·1 per cent., respectively.)

Character of the season.—Since the issue of the second forecast in February last the conditions have generally remained the same except that the crop is reported to have deteriorated a little in the districts of Murshidabad and Bogra owing to cloudy weather, and to have improved to some extent in the district of Midnapore. On the whole the crop is expected to be a fair one for the province.

Acreage.—According to District Officers' estimates, the total area sown is 126,200 acres this year as against 120,400 acres reported both in the corresponding and final forecasts of the last year.

Outturn.—The Provincial outturn, as worked out from district estimates, is 79 per cent. of the normal as against 63 and 62 per cent. reported respectively in the corresponding and final forecasts of last year.

Taking the normal yield to be 8½ maunds per acre, the gross yield of the crop for the province is estimated at 30,500 tons this year as against 23,200 tons and 22,900 tons reported respectively in the corresponding and final forecasts of last year.

Director of Agriculture, Bengal.

The following Act, which was made by the Governor of Bengal under the provisions of section 72E of the Government of India Act and has received the assent of His Majesty signified by an Order of His Majesty in Council, is hereby published for general information :--

An Act to supplement the ordinary criminal law in Bengal.

Preamble.

WHEREAS it is expedient to supplement the ordinary criminal law in Bengal;

AND WHEREAS the previous sanction of the Governor-General has been obtained under sub-section (*3*) of section 80A of the Government of India Act to the passing of this Act ; 5 & 6 Geo. V, c. 61; 6 & 7 Geo. V, c. 37; 9 & 10 Geo V, c. 101.

It is hereby enacted as follows :—

Short title, commencement, extent and duration.

1. (*1*) This Act may be called the Bengal Criminal Law Amendment Act, 1925 ;

(*2*) It shall come into force on such date as the Local Government may, by notification in the *Calcutta Gazette*, direct ;

(*3*) It extends to the whole of Bengal ; and

(*4*) It shall continue in force for five years from the date of its commencement.

Definition.

2. In this Act, unless there is anything repugnant in the subject or context, "the Code" means the Code of Criminal Procedure, 1898. Act V of 1898.

Power of Local Government to direct trial by Commissioners in certain cases.

3. (*1*) The Local Government may, by order in writing, direct that any person accused of any offence specified in the First Schedule shall be tried by Commissioners appointed under this Act.

(2) No order under sub-section (1) shall be made in respect of, or be deemed to include, any person who has been committed under the Code for trial before a High Court, but save as aforesaid an order under that sub-section may be made in respect of, or may include, any person accused of any offence specified in the First Schedule whether such offence was committed before or after the commencement of this Act.

Appointment and qualification of Commissioners.

4. (1) Commissioners for the trial of persons under this Act shall be appointed by the Local Government.

(2) Such Commissioners may be appointed for the whole of Bengal or for any part thereof, or for the trial of any particular accused person or persons.

(3) All trials under this Act shall be held by three Commissioners, of whom at least two shall be persons who at the time of appointment under this section are serving as, and have for at least three years served as or exercised the powers of, Sessions Judges, or Additional Sessions Judges, or are persons qualified under sub-section (3) of section 101 of the Government of India Act, for appointment as Judges of a High Court. 5 & 6 Geo. V, c. 61; 6 & 7 Geo. V, c. 37; 9 & 10 Geo. V, c. 101.

Procedure of Commissioners.

5. (1) Commissioners appointed under this Act may take cognisance of offences without the accused being committed to them for trial, and in trying accused persons, shall record evidence in the manner prescribed in section 356 of the Code and shall, in other respects also, subject to this Act and to any rules made thereunder, follow the procedure prescribed by the Code for the trial of warrant cases by Magistrates.

(2) In the event of any difference of opinion among the Commissioners, the opinion of the majority shall prevail.

Powers of Commissioners.

6. (1) The Commissioners may pass upon any person convicted by them any sentence authorised by law for the punishment of the offence of which such person is convicted.

Application of Code of Criminal Procedure to proceedings of Commissioners.

7. The provisions of the Code, so far only as they are not inconsistent with the provisions of, or the special procedure prescribed by or under, this Act shall apply to the proceedings of Commissioners appointed under this Act, and such Commissioners shall have all the powers conferred by the Code on a Court of Sessions exercising original jurisdiction.

Tender of pardon.

8. (1) Commissioners trying an offence under this Act may, with a view to obtaining the evidence of any person supposed to have been directly concerned in, or privy to, the offence, tender a pardon to such person on condition of his making a full and true disclosure of the whole circumstances within his knowledge relative to the offence and to every other person concerned whether as principal or abettor in the commission thereof.

(2) Where, in the case of any offence for the trial of which by Commissioners an order has been made under sub-section (1) of section 3, a pardon has, before the passing of such order, been tendered to and accepted by any person under section 337 of the Code, the provisions of sub-sections (2) and (3) of that section of the Code shall apply as if the accused person had been committed for trial to the Commissioners.

(3) For the purposes of sections 339 and 339A of the Code pardons tendered under sub-section (1) and sub-section (2) shall be deemed respectively to have been tendered under sections 338 and 337 of the Code.

Special rule of evidence.

9. Notwithstanding anything contained in the Indian Evidence Act, 1872, when the statement of any person has been recorded by any Magistrate, such statement may be admitted in evidence in any trial before Commissioners appointed under this Act if such person is dead or cannot be found or is incapable of giving evidence, and the Commissioners are of opinion that such death, disappearance, or incapacity has been caused in the interests of the accused. PART VI.

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of State on the 4th March, 1925 :—

No. 2 OF 1925.

A Bill to amend the Succession Certificate Act, 1889.

WHEREAS it is expedient to afford protection to parties paying as well as debts to the representatives of deceased persons claims payable under policies of assurance effected on their lives ; it is hereby enacted as follows :—

Short title and commencement.

1. (*1*) This Act may be called the Succession Certificate (Amendment) Act, 192 .

(*2*) It shall come into force on the day of 192 .

Amendment of section 4, Act VII of 1889.

2. Sub-clauses (*a*) and (*b*) of sub-section (*1*) of section 4 of the principal Act are repealed and the following sub-clauses shall be substituted therefor, namely :— VII of 1889.

"(*a*) Pass a decree for payment of—

(*1*) any debt accrued or accruing due to a deceased person at the time of his death,

(*2*) any claim arising out of any policy of assurance effected on the life of the deceased whereby the moneys to be paid thereunder are expressed to be payable to his executors or administrators, to a person (other than an assignee of such debt or claim) claiming to be entitled to the effects of the deceased person or any part thereof, or

(*b*) proceed upon an application of a person claiming to be so entitled to execute against a debtor of the deceased a decree or order for the payment of his debt."

Addition of words after "debt" and "debts."

3. The words "or claim" shall be inserted after the word "debt" and the words "or claims" after the word "debts" wherever the same occur in the principal Act, respectively. VII of 1889.

STATEMENT OF OBJECTS AND REASONS.

The sole purpose of the Bill is to assist towards the speedy settlement of claims under policies for life assurance and to afford adequate security to Companies making payments. Expeditious settlement of claims is a matter of as much concern to the paying Companies as to claimants, but it is frequently obstructed by the failure on the part of claimants to adduce necessary proof of title. Under the terms of a policy the moneys are payable to the executors or administrators of the deceased and Companies accept the modified form of grant as constituted by a Succession Certificate as sufficiently complying with the condition. But cases occur with some frequency where Subordinate Courts refuse applications for certificates on the ground that they are unnecessary for the enforcement of claims for policy moneys. A Company is then placed in this position : that it has either to admit and pay the claim with the possible risk of being called upon to pay again to a future claimant, or decline to entertain the claim without production of a Grant or Certificate and in such case compel the claimant to institute a suit to establish his title. But as the policy of Companies is to avoid litigation except in an extreme case the practice is to accept the title of the claimant on such evidence as may be adduced in the nature of declarations and affidavits which in themselves are inconclusive and afford no actual security in the event of payment being subsequently proved to have been made erroneously. It will be seen then that Insurance Companies in the pursuit of their object to secure a speedy settlement of claims and in affording to claimants the greatest amount of assistance voluntarily expose themselves to risks which it would be admitted ought not properly to be undertaken by them, and it will be generally agreed that such a system should not be allowed to continue unless valid objections can be put forward against its abolition. So far as can be ascertained no such objection can be raised, and the Bill which is now introduced incorporates merely a simple measure whereby any claimant to policy moneys will be compelled to apply for a Succession Certificate in proof of his title. As already explained the difficulty which is experienced has arisen by reason of Subordinate Courts having held that a certificate is not necessary in certain cases. If a positive enactment is introduced specifically bringing claims under policies within the scope of the Act all uncertainty on this head will be eliminated ; a certificate will issue as of course at a small cost to the claimant and the claim will be immediately settled.

It will be observed that the general form of the section has been somewhat altered and that an amendment has been inserted with regard to the provisions as to payment of a debt. The reason for this alteration is to be found in the uncertainty which has occasionally arisen in cases dealt with by Subordinate Courts by which it has been held that only debts which have become payable to the deceased at the time of his death fall within the category of debts to which the Act is applicable. The definition of a debt has been exhaustively discussed by the Calcutta High Court in the case reported in 13 Calcutta Weekly Notes, but it would seem that some inferior Courts are not disposed to follow the rulings in that case and the present is considered an opportune occasion to introduce an amendment which will obviate the possibility of future controversy on the point and will give effect to what was undoubtedly the intention of the principal Act. Both provisions are considered necessary as it is at any rate doubtful whether a claim under a policy falls within the category of debts—the contrary having been held in certain cases and, unless the enactment is made specifically applicable to claims under policies, an amendment on other lines must necessarily give rise to further litigation.

Substitution of title "Officer Commanding the station".

14. In the said Act for the words "Commanding Officer of the cantonment", wherever they occur, the words "Officer Commanding the station" shall be substituted.

STATEMENT OF OBJECTS AND REASONS.

The purpose of the Bill is to remove certain minor defects which have come to light in the first year's working of the Cantonments Act, 1924. The nature of each proposed amendment is briefly explained below.

Clause 2 (a) and clause 9.—These amendments are necessary to bring the wording of the Act into line with the revised designation of the service.

Clause 2 (b).—It does not appear to be necessary to require the previous sanction of the Governor-General in Council in these cases.

Clause 3.—The object of the proposed amendment is to make it clear that the nomination of military officers to a Cantonment Board should be by name. The word "appointment" in section 14 (*1*) (*f*) is not correctly used as no appointment is made of *ex officio* members. The use of the word in section 14 (2) is further unnecessary.

Clause 4.—It was intended that "a Magistrate of the first class" referred to in section 14 (*1*) (*b*) should be either an honorary or a stipendiary Magistrate, and that a stipendiary Magistrate should not be qualified for election to a Cantonment Board; but under section 28 (*2*) (*c*) a stipendiary Magistrate cannot be nominated. The section has been amended to allow of the nomination but not of the election of the stipendiary Magistrate.

Clause 5.—It is considered necessary in the interest of discipline and for the proper control of cantonment servants to provide that a cantonment servant shall be deemed to be a public servant for the purpose of the Indian Penal Code.

Clauses 6 and 12.—Cantonment Boards derive a substantial portion of their income from the management of Government lands in cantonments. But as this does not fall within the statutory powers of a Cantonment Authoriry as so far defined under the Act, it is now proposed to make the necessary provision.

Clause 7.—The object of this amendment is to empower the Cantonment Authority to compel the removal of ruinous buildings in cantonments by their owners. Similar provisions are contained in many municipal Acts.

Clauses 8, 10, 11, 13 and 14.—General amendments.—The military officer in command of the troops in a cantonment is designated the "Officer Commanding the station," whereas the same officer is described in the Cantonments Act as the Commanding Officer of the cantonment. The object of the proposed amendments is merely to obtain uniformity in nomenclature.

2. Clauses 2, 4 and 7 provide for the continuance of the rates of salt duty, postage income-tax and super-tax prescribed by the Indian Finance Act, 1924, while clause 6 provides for the credit to revenue for a further period of one year, *i.e.*, till the 31st March, 1926, of interest on securities forming part of the Paper Currency Reserve.

3. Clauses 3 and 5 give effect to certain minor amendments which it is proposed to make in the tariff. The changes are not important from the revenue point of view and are as follows:—

(*i*) The 2½ per cent: import duty on grain and pulse is removed in accordance with the recommendations of the Fiscal Commission. Import of these articles is negligible in normal times and the duty is suspended in times of scarcity.

(*ii*) At present motor spirit produced in India is subject to an excise of 6 annas a gallon and imported motor spirit to a duty of 8½ annas a gallon. Imports are extremely small and in order to cheapen motor spirit, it is proposed to reduce the excise duty to 4 annas a gallon on petrol produced in the country and to levy merely a customs duty on imported motor spirit at the same rate, viz., 4 annas a gallon.

(*iii*) Certain articles such as heads, reeds, shuttles, etc., can be used as component parts either of power looms or hand looms and are therefore assessable to duty under the higher rate, *i.e.*, as component parts of hand looms. Their chief use, however, is in power looms. It is proposed to amend the Schedule so as to make it clear that the duty to be levied on these articles is the same as that on other component parts of power machinery, namely 2½ per cent.

The following Bill was introduced in the Legislative Assembly on the 5th March, 1925 :—

No. 23 OF 1925.

A Bill further to amend the Indian Income-tax Act, 1922.

WHEREAS it is expedient further to amend the Indian Income-tax Act, 1922, for the purpose hereinafter appearing; It is hereby enacted as follows :— XI of 1922.

Short title.

1. This Act may be called the Indian Income-tax (Second Amendment) Act, 1925.

Amendment of section 18, Act XI of 1922.

2. In section 18 of the Indian Income-tax Act, 1922, after sub-section (*2*) the following sub-section shall be inserted, namely :— XI of 1922.

"(*2A.*) Notwithstanding anything hereinbefore contained, for the purpose of making the deduction under sub-section (*2*), there shall be included in the amount payable any income chargeable under the head 'Salaries' which is payable to the assessee out of India by or on behalf of Government, and the value in rupees of such income shall be calculated at the prescribed rate of exchange."

STATEMENT OF OBJECTS AND REASONS.

Under the Superior Civil Services (Revision of Pay and Pension) Rules, 1924, dated December 9, 1924, made by the Secretary of State for India in Council, under section 96 B (2), (3) of the Government of India Act, overseas pay is drawn by certain officers, in sterling, from the High Commissioner for India in London. Under the Indian Income-tax Act this overseas pay is liable to Indian Income-tax; but as the Indian Income-tax Act is not enforceable outside India, there is no legal obligation either on the High Commissioner to deduct the income-tax at the time of payment of the overseas pay or on the person entitled to the overseas pay to submit to such deduction. Nor can any authority in India, as the law stands at present, recover the income-tax every month by deduction as the overseas pay is paid. The only course therefore open to the Income-tax Department under the Act is to recover the tax on the overseas pay at the time of assessing the officer in the next year. For reasons of administrative convenience it is considered that the income-tax on such overseas pay should be collected every month by the authority in India which pays the officer the rest of his pay, and this Bill is intended to give effect to this arrangement.

NOTIFICATION.

Delhi, the 6th March, 1925.

No. F.-82-I.—25-A. C.—Under Rule 18 of the Indian Legislative Rules the Governor-General has been pleased to order the publication in the Gazette of India of the following Bill, together with the Statement of Objects and Reasons relating thereto, and the Bill and Statement of Objects and Reasons are accordingly published for general information :—

BILL NO. 24 OF 1925.

A Bill further to amend the Indian Stamp Act, 1899.

WHEREAS it is expedient further to amend the Indian Stamp Act, 1899, for the purpose hereinafter appearing ; It is hereby enacted as follows :— II of 1899.

Short title.

1. This Act may be called the Indian Stamp (Amendment) Act, 1925.

Amendment of Schedule I, Act II of 1899.

2. In article No. 47 in Schedule I to the Indian Stamp Act, 1899, after Division C, the following Division shall be inserted, namely :— II of 1899.

"CC.—INSURANCE BY WAY OF INDEMNITY against liability to pay damages on account of accidents to workmen employed by or under the insurer or against liability to pay compensation under the Workmen's Compensation Act, 1923, for every Rs. 100 or part thereof payable as premium		One anna."

STATEMENT OF OBJECTS AND REASONS.

Before the Workmen's Compensation Act, 1923 (VIII of 1923), was brought into force it was noted that insurance policies to cover workmen's compensation would be liable to duty under No. 47-D of Schedule I of the Stamp Act, 1899 (II of 1899), and that the sum insured being the maximum possible amount of compensation payable under the policy, namely, Rs. 3,500 for each workman, the sum payable in the case of permanent disablement, the stamp duty payable on such a policy under Item 47-D would be so high as entirely to prohibit insurance, namely, Re 1-8 per workman. After consulting Local Governments it was decided, as an emergency measure which could be carried through before the date when the Workmen's Compensation Act came into force, to reduce the stamp duty chargeable on such policies by the use of the powers conferred upon the Governor-General in Council by clause (*a*) of section 9 of the Indian Stamp Act, 1899, and Notification No. 2645 of the Government of India in the Finance Department (Central Revenues) was issued on the 26th of June 1924 reducing the stamp duty to one-tenth per cent. of the premium payable.

2. After the issue of that notification, a communication was received from one Local Government supporting a proposal that the stamp duty should be fixed at a uniform rate of eight annas for each policy, irrespective of the number of workmen covered, with the alternative suggestion that, if a scale had been definitely decided upon, the rate ought certainly not to be more than one anna for every Rs. 100 of premium. The Government of India again consulted all Local Governments themselves expressing a preference for a scale on the grounds : firstly, that it might provide for an even smaller fee than eight annas in the case of a policy covering the workers in a small factory ; and secondly, that there was no obvious reason why the duty should be the same in the case of a small factory and in that of a large one, since it was the owners of small factories who needed to be encouraged to insure. All Local Governments have agreed to the proposal that the rate should be fixed at one anna for every Rs. 100 of premium paid, and the object of the present Bill is to give effect to this agreement. The rate proposed is appreciably less than that now in force under the notification quoted above.

RESOLUTION ON THE REPORTS FROM THE COMMISSIONERS OF DIVISIONS ON THE WORKING OF MUNICIPALITIES IN THE BENGAL PRESIDENCY (EXCEPT CALCUTTA) DURING THE YEAR 1923-24.

GOVERNMENT OF BENGAL.

Local Self-Government Department.

CALCUTTA, THE 14TH APRIL 1925.

RESOLUTION No. 1277M.

Reports from the Commissioners of Divisions on the working of municipalities in the Bengal Presidency (except Calcutta) during the year 1923-24.

1. **Number of municipalities.**—The number of municipalities increased from 117 to 118 owing to the establishment, with effect from 1st October 1923, of a

municipality at Gaibandha in the district of Rangpur. The area of the Pirojpur municipality in Bakerganj was reduced from eleven to eight square miles by the exclusion of eight villages which are more rural than urban.

2. **Elections.**—General elections were held in 19 municipalities and were hotly contested in the majority of cases. The percentage of attendance of voters in the elections was high in many cases: in the small town of Kalna about 75 per cent. of voters were present at the polling stations. These contests, while indicating that keener interest is being taken in elections generally, may to a certain extent be attributed to the excitement caused by the Swarajist attempts to capture the local bodies. In Champdany two of the defeated candidates instituted civil suits for setting aside the elections of Wards II and III. The cases are still pending. A civil suit in connection with the general election of Ward VII of the Dacca municipality, held in 1921-22, which was pending before the High Court, was dismissed and fresh elections for the two seats were held after the close of the year. Pending the High Court's decision of the civil suit in connection with the election of Wards II and III of the Maniktola municipality, which was held in 1919-20, the new Board could not be formed for the last three years. This case illustrates the pressing need for the speedy disposal of election disputes by special tribunals. It is hoped that the provisions for such tribunals made in the new Municipal Bill, which was introduced into the Bengal Legislative Council in August last, will, when adopted, remedy the present state of affairs.

3. **Meetings.**—Altogether 136 meetings or on the average, one in every 18 failed for want of a quorum. The failure was most marked in Jainagar where nine out of 17 meetings were adjourned and three proved abortive. At Suri and Murshidabad more than half, and at Kotchandpur nearly half, the number of meetings held was unsuccessful. The small municipality of Panihati held the largest number of meetings, *viz.*, 79, but this is due to the fact that many special meetings were held at the same sitting, the subject matters for which could have been disposed of in general meetings. The Commissioners of Kanchrapara, Garulia, Taki, Ranaghat, Dainhat and Khirpai failed to meet once a month. It is reported that the statement made in the resolution for the preceding year that 14 meetings held by the Birnagar municipality in 1922-23 failed was not correct. The attendance of Commissioners was on the whole fair, but it was very poor at Budge-Budge

4. **Rate-payers and voters.**—The total number of rate-payers rose from 328,789 to 333,429 or 15·3 per cent. of the total population. The ratio varied from 35·4 in Kumarkhali to 8·1 per cent. in Titagarh, a mill town with a large cooly population. Other towns in which rates are paid by less than one-tenth of the people are the hill stations of Darjeeling and Kurseong and the several riparian mill municipalities, including Naryanganj—a town with a floating population of factory operatives living with their employers. There was an appreciable increase in the number of rate-payers at Panihati, Baranagar, Cossipore-Chitpur, Bhatpara, Garden Reach, Halisahar, Khulna and Debhatta, but no explanation of the increase has been given except in the case of Baranagar where it was due to natural growth in the population.

5. **Assessment and taxation.**—The average incidence of taxation per head of population rose from Rs. 2-14-0 to Rs. 2-15-3. It is highest in the hill municipalities of Darjeeling (Rs. 10-0-9) and Kurseong (Rs. 8-4-10). Next come Howrah (Rs. 7-12-3), Cossipore-Chitpur (Rs. 7-11-4) and Chittagong (Rs. 5-5-5): in the last-named town the increase is due to general revision of assessment. In three other municipalities, *viz.*, Naraiganj, Burdwan and Maniktola the ratio was above Rs. 4, while it is as low as 6 annas and 6 pies in Debhatta and a little over 8 annas in Bajitpur and Ramjibanpur. Generally speaking, the incidence of municipal taxation in the Presidency, as compared with English standards, is extremely low and unless the rate of taxation is raised no great amelioration of the conditions of civic life can be effected.

A general or partial revision of assessment was made in 31 municipalities while the revision made in the previous year took effect in six other towns. The revision produced an increase of Rs. 5

lakhs in the municipal demand of the Presidency as a whole. The largest increase was obtained in Dacca (Re. 1 lakh); then come Chittagong with an increase of Rs. 31,956; Baranagar, Rs. 24,462; Serampore, Rs. 17,381; and Berhampore, Rs. 16,727. In Barisal the rate of "Tax on persons" was raised from 14 annas to Re. 1 per hundred rupees of annual income and the latrine rate from 8 to 9 per cent. on the annual value of holdings; on the other hand the water rate was lowered from 6 to 5 per cent. As a result, the demand of the municipality increased by about Rs. 7,000 per annum.

6. **Collections.**—The total collections for the Presidency as a whole increased from Rs. 61½ lakhs to Rs. 62½ lakhs, but the percentage on the current demand fell from 95·2 to 89·9, the lowest ratio (54·04) being returned by Rajbari, where the Municipal Commissioners refrained from adopting stringent measures for the realization of taxes, as these had been newly imposed. In 23 municipalities the collections were equal to or in excess of the current demand and in 11 they were over 99 per cent. On the other hand, in seven municipalities, the ratio was under 80 per cent.—a deplorably low figure—falling as low as 67·2 per cent. in Dacca. The poor collections in Dacca and, in consequence, the heavy outstanding balance are ascribed to a widespread and unscrupulous agitation headed unfortunately by three Commissioners against the revision of assessment. As in the previous years, Garulia and Nalchiti collected cent. per cent. of the demand without any remission. Champdany and Titagarh also collected practically the whole demand, granting only ·2 and 1·1 per cent. remission.

The percentage of remissions on the current demand for the Presidency as a whole rose from 3·6 to 4·1. The small municipality of Baduria remitted nearly one-fifth of its current demand which amounts to only Rs. 7,847, while five others, *viz.*, Bankura, Rajpur, Baraset, Nabadwip and Sirajgang remitted more than 10 per cent. The high remission in Bankura (14·58 per cent.) was due to the failure to realize, even by civil suits, long outstanding arrears which exceeded half the current demand. No explanation has been given for the high percent-

The balances outstanding at the close of the year rose from Rs. 9,88,037 to Rs. 14 lakhs of which Howrah alone was responsible for nearly Rs. 6 lakhs. The large accumulation in Howrah is mainly due to the delay in the disposal of appeals against the revision of assessment in two of the largest tax paying wards and to the non-payment of Rs. 42,000 due from the East Indian Railway. Other municipalities which had unduly large balances outstanding were Cossipore-Chitpore, Tollygunge, Garden Reach, Dacca, Mymensingh, Chittagong, Bally, Serampore and Hooghly-Chinsurah. In the case of the first-named municipality the balance represents only 9·6 per cent. of its current demand. The balance in Tollygunge was due to long outstanding arrears, a part of which is irrecoverable and to non-payment of taxes by the Eastern Bengal Railway. The greater portion of the unrealized balance in Garden Reach was due from the Port Commissioners who withheld payments on account of a dispute over conservancy work. The arrears in Chittagong are partly due to the non-disposal of appeals made by the Assam Bengal Railway against the revision of assessment. In Mymensingh a fire in the Tax Daroga's office destroyed his books and the collections remained at a standstill till the end of the year. In other cases no satisfactory explanations have been furnished but generally they are due to laxity in collections and the neglect of the municipal executive to enforce punctual payments, quarter by quarter, by means of a regular and impartial issue of warrants.

7. **Income and expenditure.**—The aggregate receipts, including opening balances, rose from Rs. 1,12,83,825 to Rs. 1,14,86,449, the income from rates and taxes and from the sale-proceeds of Government Securities rising by nearly Rs. 3 lakhs and that from loans by nearly Rs. 1¼ lakh. Expenditure also rose from Rs. 94,44,329 to Rs. 96,07,218, the largest increase, *viz.*, Rs. 2¾ lakhs occurring under the head "Public Health and Convenience".

8. **Closing balance.**—The total balance at the close of the year amounted to Rs. 18,79,231 as against Rs. 18,39,496; the largest being held by Howrah (Rs. 3,94,568), Darjeeling (Rs. 1,55,502) and garden Reach (Rs. 1,52,260). No

large balance in Howrah except that it includes the unspent balance of the loan of Rs. 2,50,000 taken from Government for the improvement of water-supply. In the case of Garden Reach the major portion represents funds for the improvement of water-supply and in the case of Darjeeling it is mainly due to some of the sanctioned work having been put off owing to difficulty in procuring materials. On the other hand, a number of municipalities failed to keep adequate working balances, and in several cases they were insufficient to meet outstanding liabilities. In the case of Jessore, Hooghly-Chinsurah, Katwa, Raniganj, Faridpur, Rajbari, Pabna and Sirajganj the outstanding liabilities largely exceeded the closing balances. The worst offenders in this respect were English Bazar and Baraset which had outstanding liabilities of Rs. 1,342 and Rs. 2,179, respectively, against the actual balance of Rs. 97 and 205 only and Mymensingh which closed the year with a sum of Rs. 3,027 only in hand but with liabilities exceeding Rs. 30,000.

9. **Education.**—The amount spent on education, including the Government grant of Rs. 72,479 was Rs. 3,20,929 as against Rs. 3,56,200 in the preceding year. The expenditure on primary education also showed a corresponding fall of about Rs. 1,000. The decrease was most marked in Darjeeling and was due to the fact that in 1922-23 there was an extraordinary Capital expenditure of Rs. 20,363 on the boys' primary school. Twenty-one municipalities or one in six tailed to spend on primary education 3·2 per cent. of their ordinary income—the percentage which is taken to represent the amount required for the education of half the number of boys of primary school-going age. On the other hand, the percentage was over 5 per cent. in 47 municipalities and over 10 per cent. in ten.

The South Suburban municipality started another free primary school under the scheme drawn up by Mr. E. E. Biss in addition to the two opened in March 1922.

The Commissioners of the Madaripur municipality also are very anxious to give full effect to Mr. Biss' scheme; they have converted the local Middle English School into a free primary school and established two other free primary schools during the year. Berhampore decided to impose an education cess of one per cent. for the introduction of a free primary education on a voluntary basis and to establish five schools in different wards. A Hindu Girls' School was started by the Raniganj municipality while an expenditure of Rs. 1,456 was incurred by the Kotchandpur municipality in constructing a free primary school building at Solemanpur.

10. **Water-supply.**—The total number of water-works in operation in municipalities was 38. The number of persons served was 1,011,520 and the total quantity supplied was 10,821,793 gallons per day. The erection of the new machinery for the improvement of Burdwan water-works was started and one set of pumps and engines was almost completed. The Midnapore water-supply scheme could not be completed during the year on account of the failure of the cement pipes supplied by the Hume Pipe & Co. These pipes could not stand the pressure of water and had to be replaced by cast iron pipes. This involved an additional outlay of Rs. 82,000 towards which Government made a special grant of Rs. 50,000 and the District Board Rs. 30,000, the municipality receiving a donation of Rs. 20,000 from the local people. At present a supply of 20,000 gallons per day is given to the town through street standposts. The Bankura water-supply scheme could not be completed as the well sunk to a depth of 17 feet which was expected to yield water of the quality required ended in hard rock and proved a failure. This necessitated an alteration of the scheme involving an additional outlay of Rs. 11,146 which was sanctioned by Government.

A scheme for the extension of water-supply to Chatra and Mahesh wards of the Serampore municipality was approved at an estimated cost of Rs. 1,75,000, towards which Government made a grant of Rs. 58,333 and promised a loan of Rs. 60,000. The pumping station of the Raniganj water-works and the Superintendent's quarters were almost completed but the scheme could not be fully executed for want of funds. The supply of water at Dacca was improved by connecting up the second elevated reservoir and extending the street mains, but it is reported that the present supply of water, *viz.*, 12·1 gallons per head of population,

is not sufficient. There was some extension of water pipes and street hydrants in Mymensingh. But the water-works plant is being subjected to a dangerous strain owing to the fact that an excessive number of house connections was granted in the past without meters being affixed. This has resulted in a waste of water to such an extent that the supply may break down at any moment. Although the seriousness of the position has been impressed upon the Municipal Commissioners more than once, no steps have been taken to remedy the present state of affairs. It may prove necessary to require the adoption of the model rules for house connections which make the meters compulsory. A separate line of pipes was laid by the Kurseong Municipality for the supply of water to Bhagathir *bustee*. Appreciable progress was made with the Comilla water-works towards which Government contributed Rs. 1 lakh. The improvement of the Chittagong water works, towards which Government promised a grant of Rs. 50,000, was under the consideration of the Municipal Commissioners; their proposal to increase the number of water connections in anticipation of the improvement not having been accepted by Government. A scheme for the supply of water to the northern section of Chandpur at an estimated cost of Rs. 92,000 was under the consideration of the Sanitary Board. The management of the Berhampore water-works was taken over by the Public Health Department from the 17th January 1924. As usual, the suburban municipalities of Cossipore-Chitpur, Maniktola, Tollugunge, South Suburban and Garden Reach were supplied with water from the Calcutta mains, while several other municipalities in the Presidency Division got their supply from the local mill filters. A project for water-supply of the Bhatpara municipality is under the consideration of Government.

In [illegible] municipalities the water-supply is obtained from tanks. In Noakhali, where the majority of the people obtain water from the Public Works Department tank at Sonarpur by pipes, some private tanks were re-excavated and embanked for protection from the salt water.

It is gratifying to notice that the suggestion made in the two previous years' [illegible] should undertake water-supply schemes based on tube wells received the approval of several municipalities. The small municipality of Baruipur has already got 24 tube wells which have proved very successful. Tollygunge has sunk two such wells to supplement the supply available from the Calcutta mains and have proposals in hand to extend this policy. Basirhat has also made a start in this direction and has recently sunk two tube wells.

The Eastern Bengal Railway authorities supply filtered water to portions of Wards I, II and III of the Kanchrapara municipality and the Municipal Commissioners expect to arrange for an independent supply to the remaining area through tube wells.

In view of the possible removal of the Dum-Dum Cantonment, the Commissioners of the South Dum-Dum municipality, who get a partial supply from the Cantonment, have under their consideration the question of starting a tube well scheme. Owing to the lack of funds, North Dum-Dum, North Barrackpore and Panihati municipalities made no progress with their schemes for the supply of water through tube wells.

The Chairman of the Baruipore municipality states that "there was no epidemic disease of any kind within the municipality and this, it is believed, was owing to the use of tube well water."

11. **Conservancy and drainage.**—The conservancy charges which rose from Rs. 21 lakhs to more than Rs. 22 lakhs were about Rs. 5½ lakhs in excess of the receipts from latrine fees.

The sewerage pumping station of Dacca was opened in September last; it now serves a considerable part of the town. The work in connection with the Titagarh sewerage scheme is progressing slowly. The Naihati and Krishnagar schemes have been kept in abeyance for want of funds while those for Bhatpara and Kamarhati were under the consideration of Government. It is reported that the sewerage of the Kurseong municipality, which has been in operation for the last three years, has not proved satisfactory, the septic tanks forming breeding places for mosquitoes

In Rajshahi silt was cleared from a big flushing drain and several *pucca* cross drains were repaired. Minor drainage works were also carried out in several other towns. These were generally confined to construction and repair of drains.

12. **Public Health.**—It is a good sign that for the past few years almost all municipalities have been taking measures to improve sanitation by filling up, clearing or disinfecting insanitary tanks, ditches and *dobas* and by removing jungles and obnoxious vegetation. In Kalna several unsightly and jungle-covered plots of land on the outskirts of the town have been leased by the local merchants for the establishment of rice mills. The clearing and levelling of lands which were rendered necessary for this purpose have had a salutary effect on the sanitation and public health of the town. In Bansberia also much improvement was effected by a similar process, the American Manufacturing Co. having cleared a large jungly tract for their work. A thickly congested *bustee* adjoining the local bazar at Khulna was improved by opening new roads and *pucca* drains. Other municipalities might follow these examples, for as a rule, little is done in the way of town planning and improvement. By-laws were framed by certain municipalities for the eradication of water-hyacinth.

In many municipalities notices were issued on owners of insanitary tanks or those with water-hyacinth requiring them to have their tanks cleansed, filled up or re-excavated as the case might be. Notices were also issued to owners or occupiers of private lands to clear jungles and rank vegitation. In the majority of cases the notices were complied with without prosecution. Where they were disregarded, the municipality had either to prosecute or to do the work itself, retaining possession of the tank for the recovery of costs. In Midnapore alone 60 owners of unwholesome tanks were served with notices and in 14 cases the owners were prosecuted.

Preventive measures were taken by a large number of municipalities to check the spread of epidemics. Medicines and disinfectants were freely distributed, tanks were reserved and special doctors appointed, where necessary. Cholera and small-pox broke out in several municipalities in the district of the 24-Parganas and elsewhere. People were warned against using the water of suspected tanks and wells, and inoculation with cholera vaccines was freely resorted to in some towns. At Bhatpara, where 70 deaths occurred from cholera, Genozon was supplied free and Dr. Tomo's cholera mixture given with good results. At Bankura, Sanitary Inspectors attended the railway station and prevented suspected persons from entering the town. Some of the municipalities arranged lantern lectures and distributed health leaflets for the purpose of educating the people on sanitation and public health. In Asansol the Mines Board of Health carried on propaganda in public health.

Free vaccination was provided by many municipalities and effective measures were taken to secure the vaccination and revaccination of children. Vaccination depôts were opened and permanent vaccinators were employed by some municipalities for the purpose. There were some prosecutions under the Vaccination Act in Bhatpara, Kamarhati, Baranagar, Mymensingh and Chittagong.

The Bhatpara municipality granted a reward of one anna to all persons giving information of births and deaths. This example might be followed by others, in view of the fact that registration in many towns is still very defective.

Malaria and kala-azar were prevalent in some municipalities. It is reported that the local anti-malarial and kala-azar societies, where they exist, did useful work in co-operation with municipalities in combating these diseases. Quinine and cinchona febrifuge were freely distributed by many municipalities. In Dacca a survey of the prevalance of kala-azar and malaria was partially carried in Ward No. VII and three centres were established for the free treatment of kala-azar. Several fatal cases of black water fever occurred in Dinajpur.

As in the previous year there were no Health Officers in Barisal and Chittagong. The latter municipality has since decided to appoint one.

A gratifying feature of the year under review is the increasing interest displayed by some municipalities in examining

oodstuffs offered for sale to the public. n Dacca 122 samples of different kinds of foodstuffs were analysed and 28 per ent. of them were found to be adulerated. All the parties concerned were prosecuted under the Bengal Food Adulteration Act. The municipalities of Baranagar, Bhatpara and Khulna instituted a number of prosecutions under the same Act, all of which resulted in conviction, while two prosecutions for adulteration of ghee were started in Berhampore under Section 251 of the Bengal Municipal Act and ended in conviction. On the other hand, a prosecution for the importation of 239 tins of highly adulerated ghee worth about Rs. 10,000 failed in Burdwan on the technical ground that it is the Municipal Commissioners and not the Chairman who can sanction prosecution under the Bengal Food Adulteration Act. As the quality of ghee was found on analysis to be thoroughly poisonous, the Chairman moved the Municipal Commissioners for the revival of the prosecution but the majority of them decided not to proceed further with the matter. This demonstrates the need for vesting the Chairman with powers for starting prosecution under the Food Adulteration Act; the new Bengal Municipal Bill contains a provision of this kind.

13. **Public works.**—The amount spent on public works rose from Rs. 10,75,420 to Rs. 12,05,539, the largest increase occurring under the head "Roads". The increase was most marked in the Presidency Division. It is reported that more expenditure is needed on roads in Chittagong.

The percentage of outlay on public works to the total expenditure varied from 1·2 in Bhola to 41·3 in Champdani.

14. **Loans.**—Altogether 43 municipalities were in debt to Government at the end of the year, their total liabilities amounting to nearly Rs. 39 lakhs. Howrah took a loan of Rs. 2,50,000 for the improvement of water-supply and Sherpur in the district of Mymensingh Rs. 10,000 for the construction of its office building, while Dinajpur and Rajbari fully redeemed their loans. The latter, however, still owes to Government Rs. 1,400 which was taken as an advance. The loan of Rs. 1,000 raised by the Santipur municipality in the open market was liquidated in full. A sum of Rs. 1,435, being the unspent balance of a loan taken by the Katwa municipality for its drainage scheme was illegally appropriated towards general expenditure. The Municipal Commissioners have lately been asked to refund the amount to Government at an early date.

15. **Audit of accounts and embezzlement.**—The accounts of almost all municipalities were audited. The audit discloses a very unsatisfactory condition of affairs in the Baraset municipality. There have been embezzlements by the collecting sarkar and the accountant, the preparation of which was facilitated by the laxity of the municipal executive. A report has been called for from the municipality. Embezzlements or misappropriation of municipal money also occurred in Gobardanga, Satkhira, Mymensingh and Jamalpur. The amounts misappropriated in the first two named municipalities were, however, recovered from the culprits and the officers concerned were dismissed. In the case of Mymensingh and Jamalpur the culprits were criminally prosecuted; their cases are still pending. In Krishnagar a case of double payment of Rs. 229 made to a contractor was detected and the contractor was criminally prosecuted. The case is now *sub judice*. The accountant who passed the bills was punished departmentally. Government have recently received a proof copy of the Examiner of Local Accounts consolidated audit report for the Presidency which is published for the first time in the current year. This Report deals in a lively and interesting manner with the dry bones of municipal finance and very clearly characterizes the defects which are only far too common.

16. **General remarks—Burdwan Division: Howrah.**—The ordinary income of the municipality increased from Rs. 15·92 lakhs to Rs. 16·99 lakhs. The increase is mainly due to the revision of assessment in Wards IV and VIII, to which effect was given during the year under review. Expenditure also rose from Rs. 14 lakhs to Rs. 15·88 lakhs mainly on account of increased outlay under the heads Water-supply, drainage, conservancy and roads and of the payment of arrear bills of the Calcutta Electric Supply Corporation. The current demand of the municipality increased from Rs. 16·70 lakhs to Rs. 17·77 lakhs and about Rs. 2 lakhs of arrear

collections were realised during the year. The collection and assessment departments were reorganized and additional staff sanctioned.

As in previous years, the work of conservancy was done by Ward Committees. The question of the disposal of street sweepings in this town is a difficult one. It is reported that the present system of using them for filling up tanks cannot continue long and a scheme for an incinerator has been prepared. The length of roads watered daily increased from 26 miles to 30 miles.

A sum of Rs. 21,000 was spent on education. Five primary schools have been taken over by the municipality and education has been made free. The Municipal Commissioners have also decided to establish a free primary school in the northern part of the town where there was none.

The birth-rate of the town was 23·5 per mille against 25·48, while the total number of deaths was 5,801 against 5,356 in the preceding year. The increase was not, however, due to ravages of epidemic diseases.

The Commissioner of the Division remarks that the Chairman of the Burdwan municipality continued to take keen interest in the administration of the town. The water-works of the town require thorough renovation, but the Municipal Commissioners are unable to finance any loan. A small beginning has been made towards tackling the problem of kala-azar by the opening of a kala-azar dispensary, but the old enemy, malaria, has been allowed to continue its ravages practically unchecked. It is satisfactory, however, to note that systematic anti-malarial work on the lines advocated by Dr. G. C. Chatterji has lately been taken up in co-operation with the district and railway authorities. The influx of kala-azar patients to Kalna has decreased, as centres for the treatment of the disease have been opened in different parts of the subdivision, but malaria has increased. Anti-Malarial Society has lately been formed. The recent severe outbreak of cholera in Katwa has demonstrated the imperative necessity for a filtered water-supply, and the municipal Commissioners propose to construct two tube wells. Street lighting arrangements in the town were inadequate, few of the roads were repaired and the Sanitary Inspector was discharged. The greatest need of Asansol —a growing industrial centre—is an adequate and up-to-date water-supply. At present the people obtain water from a few scattered wells, all of which dry up in the hot weather. Several schemes for water-works were formulated at different times, but have been abandoned as too costly. A proposal for a joint scheme with the East Indian Railway for bringing filtered water from the Barakar river is now under consideration. Conservancy presents peculiar difficulties in this town, as exceptionally high rates are demanded by the sweepers on account of the vicinity of extensive collieries and of the East Indian Railway settlement. The condition of the three municipalities in the district of Bankura is not very satisfactory: roads are not well maintained, conservancy arrangements are indifferent, drains and privies are not efficiently cleansed and cesspools, where they exist, are a standing nuisance. The District Magistrate of Midnapore reports that the best managed municipalities in the district are Tamluk and Ghatal, both of which are doing very useful work. The financial position of the Midnapore municipality is still unsatisfactory. The District Magistrate of Hooghly remarks that insufficiency of funds is the bane of most of the municipalities in the district and that in the two larger municipalities of Hooghly-Chinsurah and Serampore lack of proper supervision and control is partly responsible for their straitened financial condition. In Hooghly-Chinsurah the outstanding liability at the end of the year was Rs. 24,182 against a closing balance of Rs. 11,356; in Serampore it was Rs. 26,125 against a closing balance of Rs. 23,848. with regard to the smaller municipalities the Magistrate observes that the main difficulty appears to be that party feeling often prevails over the public interest. The much needed water-supply scheme of the Kotrung municipality was abandoned owing to party faction. The noticeable feature of the Champdany municipality was that the collection for the last three years was more than 99 per cent. The Chairman of the Bally municipality observes that Government was thoroughly justified in their experiment—the first in mufassal Bengal—of giving this town the benefit of a lady Commissioner, *viz.*, Mis McLeod and that their choice has been singularly successful.

17. **Presidency Division.**—The following extracts from the report of the Magistrate of the 24-Parganas furnish a review of municipal administration in that district which contains one-fourth of the total number of municipalities in the Presidency:—

"The most hopeful part of municipal work is the increasing attention that is being paid to the necessity of a good Water-supply. Definite action has been taken or is about to be taken by Kanchrapara, Bhatpara, Garulia, Titagarh, Naihati, Baranagar, Kamarhati, South Dum-Dum, Baruipore and Basirhat. . . . . The most essential thing for health in a town is proper drainage. In this, Titagarh leads the way with its sewerage scheme under construction. Bhatpara and Kamarhati are following close behind with their schemes which are at present before Government. A start has thus been made in this important work and I trust that the other congested municipalities along the mill area will soon be able to follow their example. I have been much impressed by the excellent work done by the Health Officer and Sanitary Inspectors of the various towns. Formerly, there was no body whose duty it was to fight epidemics and the Chairman and the Vice-Chairman had to do their best with inadequate knowledge and a complete want of staff with the result that the epidemics had a free hand. Now the appearance of an epidemic is met with energetic action by a skilled official."

The above remarks can be placed on the credit side of municipal administration and it shows what can be done when there is an active hardworking population but there are many municipalities in this district which cannot justify their existence. In Jaynagore, Rajpur, North Dum-Dum, Gobordanga, Barasat, Baduria and Taki not even the municipal rates are properly collected: the local authorities are moribund. The Commissioners do not seem capable of understanding their civic responsibility in realising the money for the public and are quite content to let things slide. These municipalities are also characterised by the heavy cost of administration. What work is done is of little extent, is badly done and costs far too much."

The Magistrate of Nadia reports that all the municipalities in that district have been fairly keen and done their duties in a fairly satisfactory manner. In Nabadwip and Santipur, however, party feeling marred the harmonious working of the municipalities and proved detrimental to public interests. The condition of roads in Krishnagar continues to be deplorable. The town of Kushtia is developing fast and the Commissioners have already started a development schemes by constructing new roads. The Birnagar municipality, though financially handicapped, is making valiant efforts to rid the town of malaria and receives useful support and cooperation from the newly started *Palli Mandali*. The municipal administration of the district of Murshidabad is said to have been fairly well-managed, so far as funds permitted, but the general complaint of all the municipalities is want of funds which handicaps their efforts to make any improvement. In Azimganj the system of inspection of the wards by the Commissioners was kept up with good results. Of the three municipalities in Jessore, Kotchandpur leads the way as the most efficient and up-to-date, Jessore is still hampered by heavy repayments for water-works loans, while Moheshpur is declining slowly with an ever-diminishing population of only 3,600. Khulna continues to do creditably, though not quite up to the standard of the previous year in the matter of collection; the work of the Debhatta municipality is said to be slovenly—as before. It is reported that the new Board which has lately been formed show a desire for progress.

The Commissioner of the Division observes:—

"On the whole, there was a distinct advances made by the municipalities in the year under report. In a few municipalities, however, the executive displayed regrettable timidity in taking legal steps for collecting taxes, with the inevitable consequence that the administration was bad. This is chiefly due to the fear of offending voters who might withhold votes at the next election and the educated community who might write in the newspapers. . . . . There is a tendency to spend less and less on roads with the result that in most of the municipalities the roads are in a deplorable state. The conservancy administration was generally satisfactory, but the methars and sweepers everywhere are

dissatisfied with their pay. The water-supply was not fully adequate in most municipalities though the dearth of water is not felt so keenly in any town as in the rural areas."

18. **Dacca Division.**—Dacca suffered a great loss in the death of Nawab Khaja Muhammad Yusuf, who had been the Chairman for nearly 18 years. The state of affairs in the municipality is unsatisfactory; the revision of assessment was strenuously opposed and in consequence the collections were extremely bad.

The Magistrate of Mymensingh is unable to congratulate the municipalities within his district on the success of their administration. In Mymensingh town, the roads and drains are said to be "about as bad as they possibly could be."

On the whole, the municipalities of Faridpur and Madaripur were efficiently conducted but the financial position of the Rajbari municipality leaves much to be desired. As regards the municipalities in Bakarganj, the Magistrate observes that they are all suffering from a shortness of funds, which makes it impossible for them to take suitable measures for improving the amenities of civic life. In Barisal the extension, and in Patuakhali, the establishment of water-works is said to be an absolute necessity. None of the municipalities are in a position to make adequate provision for sanitary improvements, and Jhalakati and Perojpur are trying their best even to get rid of the Sanitary Inspectors. Bhola and Nalchiti can with difficulty pay for the existing services. Within circumscribed limits, however, all the municipalities, especially Barisal and Patuakhali have done good work. An interesting feature of the year was the establishment by the Barisal municipality of a Co-operative Society among the municipal sweepers called "Barisal Municipal Methar Samabaya Sammilani" consisting of 68 members, with the Municipal Chairman as its *ex-officio* Chairman. The object of the Society is to rescue the sweepers from their chronic state of indebtedness.

19. **Chittagong Division.**—The financial condition of the Chittagong municipality was unsatisfactory. There was a large accumulation of arrear taxes owing to laxity in collection. The Cox's Bazar municipality suffered from a terrible cyclone in May 1923. The financial condition of the Comilla and Brahmanbaria municipalities was fairly good. In Noakhali several of the municipal roads were raised and improved and steps were taken to keep the town in neat and clean condition.

20. **Rajshahi Division.**—The Commissioner of the Division observes:—

"With the exception of Darjeeling which has maintained its reputation as an efficient and up-to-date municipality, none of the municipalities can claim to have done more than carry on their routine activities. In some the standard of administration has deteriorated. Party strife has prevented the fruition of the energy shown by the new Rajshahi Board in the previous year. In Serajganj and Sherpur too, party faction has militated against successful administration. Some municipalities such as Pabna threaten to relapse into bankruptcy. Dinajpur is solvent but unenterprising. Kurseong was unfortunate in having no permanent Chairman for the greater portion of the year; but the Vice-Chairman who officiated for nearly the whole year carried on the work with considerable success. The incidence of taxation in the plains municipalities is very low and unless the rate-payers can make up their minds to bear additional taxation I do not see how any material improvement in municipal conditions can be looked for. I do not think that a considerably increased and properly distributed assessment would really bear hardly on any of the municipalities."

21. **Conclusion.**—The progress made in the improvement of urban sanitation and water-supply is satisfactory, but beyond this there is little in the history of the year which calls for special notice. The average annual income per municipality is Rs. 70,000 and that per head of population is about Rs 4. Financial difficulties are, therefore, at the root of most of the civic problems in the Presidency. Roads and other public works, conservancy, water-supply, lighting and general administration consumed about Rs. 54 lakhs of the total revenue and Rs. 26 lakhs were spent to provide for education, medical relief, vaccination, sanitation, drainage, fire prevention, etc. Many municipalities are too poor to be able to afford

an up-to-date administration but in many cases the Municipal Commissioners are content with an income barely sufficient for the minimum requirements of municipal administration. Unless, therefore, the municipalities are prepared to strengthen their financial position, by the raising of taxation, which is now extremely low (*viz.*, Rs. 2-15-4 per head of population), it is apparent that no great amelioration of the condition of civic life can be effected. The remedy lies in some cases in the hands of the Municipal Commissioners. In some towns, for instance, additional means may be found by the substitution of a rate on holdings for the tax on persons. The utilisation of trenching grounds for cultivation and grazing purposes is a source of income which might well be developed.

The names of the following Chairmen, Vice-Chairmen, and Municipal Commissioners have been specifically brought to the notice of Government by the Commissioners of Divisions on account of the good work done by them and Government (Local Self-Government Department) desire to express their appreciation of the public spirit shown by these gentlemen :—

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 15th April 1925.

Summary.—During the week moderate rain fell in North and East Bengal, while elsewhere the fall was only light. It has facilitated the sowing of jute and paddy and improved the prospects of standing crops generally, except in parts of West Bengal where more rain is needed. The average price of common rice for the province has risen by about 0·82 per cent. as compared with that of the previous week.

II. **Capital and income.**—At the end of the year, the capital of the institution amounted to Rs. 10,16,200 in 3½ per cent. stock certificate of the year 1865, and, in addition, temporary investments from savings stood at Rs. 23,200, as in the previous year, all of them in Government securities. The annual interest is Rs. 37,629, which is banked with the Imperial Bank of India. The year opened with a cash balance of Rs. 18,961-12-9 and closed with one of Rs. 18,227-15-1.

III. **Election to vacancies, etc.**—(1) The annual election of wards was held on Monday, the 7th January. For the 11 vacancies advertised 67 applications were received, but a further vacancy having occurred before the election, 15 girls were elected on the recommendation of a sub-committee consisting of the Rev. O. Penley, the Rev. Father T. Van der Schueren, S.J., the Rev. E. B. Joyner, and Mr. W. F. Papworth. Of the girls elected, 10 were placed in the Loreto Convent, Entally (5 in the 1st, and 5 in the 2nd, boarding school), 3 in St. Thomas' School, 1 in St. Joseph's Convent, Cuttack, and 1 in Old Church Parochial Home.

(2) Of the 13 girls withdrawn during the year, 12 had attained the age of 17, the limit ordinarily allowed under the rules, and 1 was withdrawn because the Governors had decided that she was not to be allowed for certain reasons to go home for the holidays.

(3) Of the girls who had been withdrawn during the preceding year, and in respect of whom reports have been received during the year under review, one is employed as a typist in a Mercantile firm, another as an operator in the Bengal Telephone Company, and one is helping to look after the little children in the school in which she was educated. One girl has finished her course in shorthand and typewriting at the Y. W. C. A. and is on the lookout for an appointment, while another is undergoing training at the Remington Company's classes in business routine to enable her to fulfil the duties of a steno-typist, and is also learning to operate the calculating machine.

(4) At the close of the year there were 91 wards on the rolls against 92 in the previous year. They were distributed as follows :—

Loreto Convent, Entally	1st Boarding 23, 2nd Boarding 26	49
Calcutta Girls' High School		11
St. Thomas' School		7
Loreto Convent, Asansol		8
Pratt Memorial School		6
St. Paul's Mission Home		4
St. Mary's Convent, Naini Tal		3
Old Church Parochial Home		2
St. Joseph's Convent, Cuttack		1
Dow Hill School, Kurseong		1
Bishop Westcott School, Ranchi		1
Wynberg School, Mussoorie		1
Total		94

(5) The following table affords particulars as to the class and religion of the wards at the close of the year :—

Class.	Roman Catholic.	Church of England	Non-conformist.	Total.
1. Orphans, or deserted by their parents	14	8	1	23
2. Fatherless or motherless, or deserted by their fathers or mothers	43	11	4	58
3. Those who have both parents alive	7	2	4	13
Total ...	64	21	9	94

(6) The health of the wards was generally satisfactory, but a ward who was in very poor health was sent to the Meath Convalescent Home, Shillong, for a change. Two other wards, whose eyes were defective, were supplied with spectacles. There were no deaths.

IV. **Education and Maintenance.**—The nature of the education given to the wards was that prescribed for Higher Grade Schools under the Code of Regulations for European Schools in Bengal, and in a few cases that for Secondary Schools

(2) The Governors are anxious that their wards should not be allowed to drift when they leave school, and have accordingly asked the Visiting Governor to make, in consultation with the school authorities and the girls themselves who have attained, or are about to attain, the age of 15, some definite proposals where this seems desirable, so that the last two years of their school life may be spent to the best advantage and be a preparation for earning a living.

(3) One ward was sent up for the Senior Cambridge Local Examination in December 1923 and passed. Two were sent up for the Junior Cambridge, but failed, and one was sent up for the Higher Grade Schools Final Examination and passed. Some wards appeared at the Cambridge Local Examinations held in December 1924. The results are not yet known.

(4) Under the rules a ward is not ordinarily allowed to remain on the Fund after the age of 17, when an outfit grant of Rs. 100 is generally given on application to enable her to make a start in life. In cases where wards wish to be trained as teachers, and have the support of the school authorities, or where some other special training is recommended, or they are preparing for higher examinations, some extension of the period of benefit is generally allowed. One girl was granted a further year's extension to enable her to complete her commercial course. Two other wards received short extensions of a few months each to enable them to appear at the Senior Cambridge Local Examination and the Higher Grade Schools Final Examination, respectively.

(5) The monthly average cost for the education and maintenance of each ward amounted to Rs. 25-15-6 against Rs. 25-5-9 in the preceding year.

(6) The amounts paid under the different heads of expenditure were as noted below :—

1924.	Rs.	A.	P.	1923.	Rs.	A.	P.

V. **Inspection.**—The Rev. Father T. Van der Schueren, S. J., was appointed Visiting Governor for the first-half, and the Rev. E. B. Joyner for the second-half of the year. Father Van der Schueren visited all the schools in Calcutta having Bruce wards and saw individually every ward. The impression made on him was quite favourable. In all cases the children were clean and neatly dressed, and it seemed to him that more than ordinary attention was being shown. He suggested that in December the Inspector of European Schools should obtain from the various employers of shorthand typists a list of vacancies together with the conditions of employment, and that this list should be sent to the various schools. This would also apply to the Telephone Company and other employers. The Inspector of European Schools has promised to comply with the suggestion. Mr. Joyner also visited all the schools in Calcutta having Bruce wards. He inquired about their health, happiness, and vocational desires, and on the whole was pleased with the result. He found the wards tidy and neatly dressed. All, with a few exceptions, were enjoying good health. He was glad to find the girls taking their place along with those who had had better chances in their early lives, and all, except one, seemed to be happy and well pleased with their schools. He felt that the parents of the

girls and the Governors of the Bruce Institution were deeply indebted to the school authorities for the way in which they have taken these children into their schools and given them all the advantages which the schools afford.

VI. **Meetings.**- Four meetings were held in the year, and among the various resolutions passed the following may be noted :—

That girls, on election, should as a general principle be placed in Higher Grade Schools.

No. 23-S., dated Delhi, the 25th March 1925.

RESOLUTION.—By the Government of India, Commerce Department.

SHIPPING.

Previous to 1893, the form of agreement prescribed for lascars contained a stipulation limiting the period of engagement to twelve months. In issues of this form subsequent to 1893 the figure twelve was omitted, although the practice to restrict the original engagement to a period not exceeding twelve months continued to be uniformly observed. The question has again been raised whether lascars can be engaged in the first instance under the lascar agreements for more than twelve months. The Government of India have again given the matter their most careful consideration and consider it inadvisable to depart from the present practice. At the same time they do not propose to interfere with the present arrangement whereby, with the consent of all parties interested, agreements can be extended for a period not exceeding six months by lascars who have proceeded under agreement to ports in the United Kingdom.

In other words the Government of India have decided to maintain the present practice and to regularise it by amendment of the form of agreement.

2. The Governor-General in Council is accordingly pleased to direct that article 1 of the form of agreement for lascars prescribed in the resolution by the Government of India in the late Department of Commerce and Industry, No. 4817-4822-5, dated the 4th July 1912, shall be amended to read as follows :—

The several persons whose names are hereto subscribed, and whose descriptions are contained herein, and of whom.....are engaged as sailors, hereby agree to serve on board the said ship, or any other vessel to which they may legally be transferred, in the several capacities expressed against their respective names, on a voyage from .....to any other ports or places within the limits of 60 degrees North and 50 degrees South Latitude, trading to and fro as the nature of the service of employment may require, for any period not exceeding .... months (provided that this period may be extended by a period not exceeding six months by any other further agreement entered into under section 125 (3) of the Merchant Shipping Act, 1894), and finally to be discharged at ..... within the said ..... months from the date of this agreement.

Note. The number of months to be entered must not exceed twelve.

Order.—Ordered that a copy be forwarded to the maritime Local Governments, the Director General of Commercial Intelligence, the High Commissioner for India in the United Kingdom, and the Indian Trade Commissioner in London.

Ordered also that the resolution be published in the Supplement to the *Gazette of India* for general information.

MEDICAL COLLEGE OF BENGAL.

Rules for the guidance of students seeking admission.

1. Two classes of students are admitted for study in the College :—

(*a*) "Regular class" or those who enter for the full University course.

The admission to this class is restricted to students (male and female) who are natives of, or whose parents are domiciled in, the area within the territorial limits of the Calcutta University and the provinces of Assam and Central Provinces, and those who come from the Dacca University and Board as provided for in rule 4.

(*b*) "Military class" (only students of European or Anglo-Indian parentage are admitted to this class). (*See* separate prospectus for military students.)

The admission to this class is regulated by the Director-General, Indian Medical Service.

2. The minimum preliminary qualification for admission to the (*a*) "Regular class" is the Pass certificate of the I. Sc. Examination of the Calcutta University with Physics and Chemistry, or any examination equivalent to it. In assessing the claims of those eligible for admission, special proficiency in those subjects particularly useful in the medical curriculum will be given the fullest consideration, viz., in English, Physics, Chemistry and Botany.

3. The Summer term commences on the 15th June and closes on the 19th September. The Winter term opens on the 5th October and closes on the 31st March.

4. All new students must apply for admission to the Principal, Medical College, Calcutta, in the prescribed form available in this office, on or before the 25th May, except in the case of Assamese students, who should apply to the Inspector-General of Civil Hospitals of that province for admission within such date as that officer may prescribe. Students who come from the Dacca University and the Dacca Board of Intermediate and Secondary Education are admitted on the nomination of the Secretary of the said Board and University, and the candidates from the Central Provinces on the nomination of the Director of Public Instruction of that province.

Selected candidates must pay the following fees within the time prescribed by the Principal, failing which their names will be struck off the selected list :

	Rs.	A.
Admission fee	20	0
Fees for Summer term	62	8
Athletic Club fee	4	0
Total ...	86	8

5. The number of regular students to be admitted each year is generally 120, but the Principal may, at his discretion, increase or decrease this number, and the final selection lies entirely with him.

One-fourth of the total number to be admitted, if a suitable number of candidates be obtained, shall be Muhammadans. One candidate will be nominated by the Director of Public Instruction, Central Provinces, and 6 candidates by the Inspector-General, Civil Hospitals, Assam, 3 candidates of the Dacca University and 3 candidates of the Dacca Board of Intermediate and Secondary Education by the respective authorities. These candidates must possess the qualifications mentioned in rule 2. These nominations must reach the Principal, Medical College, Calcutta, before the 10th June in each year, failing which the Principal will fill up vacancies with local candidates.

6. (*a*) Female students will be admitted to this College provided they possess the requisite preliminary qualification, and provided there is a vacancy in the Surnomoyee Hostel in which all female students must reside.

(*b*) Female students already studying in this College but belonging to provinces other than Bengal will have to pay rents for their seats in the Surnomoyee Hostel.

7. Failed students must apply for admission and pay the fee within the date prescribed by the Principal, otherwise their claims will lapse.

8. All regular students must pay an annual fee of Rs 125 in two instalments, viz., Rs. 62-8 for the Summer term and Rs. 62-8 for the Winter term. They must also pay the annual Athetic Club fee of Rs. 4 along with the fees for their Summer term. Fees once paid cannot be refunded except to those whose claim for the refund is tenable under Rule 19.

9. The fees for each term are to be paid in one instalment. Except in the case of new students, the fees for the Summer term are due on the 15th June and those for the Winter term on the 1st November, and must be paid on those dates or on such subsequent dates as the Principal directs, after which a daily fine of annas 4 will be levied along with the fee in each case of default.

10. Female students are not liable to pay the Athletic Club fee.

11. Students relegated to a further course of study after failure to pass the Preliminary Scientific M.B. and the First M.B. Examinations shall pay Rs. 80 for the whole session in one instalment within the time prescribed.

12. Students who fail at the Final M.B. Examination shall pay fees for the whole session at the following rates in one instalment :—

	Rs.
For one subject	25
For two subjects	50
For three or more subjects	75

13. Students taking up subjects outside the curriculum of the year in which they are studying shall pay Rs. 30 for each such subject including lectures and practical classes.

14. The fee for certificates issued to regular students leaving the College before completing their study, or for those issued to military students, shall be Rs. 40 per each course of lectures and practical classes and Rs. 30 for every three months of Hospital practice.

15. In calculating the sum to be paid under rule 14 by a regular student, the amount of college fees paid by him (or in the case of a student enjoying a stipendiary scholarship and free tuition, the amount which would have been paid by him had he been a paying student) shall be deducted.

16. The fees payable by a Muhammadan student requiring certificates in the same way will be calculated on the same principle, *i.e.*, he will be allowed a deduction for the full annual fee, half of which has been paid by himself and half by the Mohsin Fund.

17. Students of the Military class requiring certificates in the same way will be required to pay the rate of fees laid down in paragraph 14 for the full curriculum or for such portion as they have attended. No deduction will be made in this case as they are not free students in the sense in which that term is defined in Bengal Government Resolution (Education) No. 601 of the 7th December 1880.

18. The fee for post-graduate students undergoing a course of training in the Pathological, Bacteriological, Physiological or Chemical Laboratory is Rs. 90 for a period not exceeding six months.

19. Holders of scholarships awarded by the Government of Bengal are not required to pay the annual fees of Rs. 125 for the year in which they hold such scholarships.
